### My Three Goals for 8<sup>th</sup> Grade

There are several goals that I have arranged as I begin my 7<sup>th</sup> year of teaching 8<sup>th</sup> grade technology. First off, I would like to better be able to recognize the successes of each student, through specific praise, positive emails home to parents, Wall of Fame honors, God Sightings, and end of year trophies. Another goal that I have established is to minimize the down time in class and have assignments more readily available to challenge students who need additional work. Thirdly, I would like to integrate more iPad activities and more cost effective online resources to enhance the learning environment. With these goals in place, I am confident we will have a fulfilling year together.
