

## 5B Props Stop Motion Projects Using Jelly Cam

1. Open Jelly Cam.
2. The logo on your student desktop looks like this:

3. When you open Jelly Cam, make sure that the **Frames per Second** is set to: 5

### IMPORTING PICTURE FILES IN JELLY CAM

1. On the left side of the window, click on "Picture Files."

2. Click on "Browse Pictures."

3. Go to the folder on the computer that has the photos you need.
  - a. Go into the Student → Mr. Kent → 5B → Stop Motion Video Project with Props (PHOTOS) (5B)
4. Open Photos #1-7. (Works best if opening no more than 3-4 photos at a time.)
5. Open Photos #6-1. (Words best to open 1 photo at a time 6...5...4...3...2...1)
6. Click "Select All" and then click "Duplicate." There should be 26 photos in all once the duplication is done.
7. Click "Select All" once again and then click "Duplicate." There should be 52 photos in all once the duplication is done, this time around.
8. Open Photos # 8-9.
9. Open Photo #8.
10. Open Photo #10.
11. Select Photos #8, 9, 8, 10 and duplicate. (This represents the last 4 photos imported.)
12. Select #8, 9, 8, 10, 8, 9, 8, 10 and duplicate. (This represents the last 8 photos imported.)

13. Select Photos #11 – 56. (Recommended to import no more than 3-4 photos at a time to eliminate information overload and program freezing.)
14. After completing up through Step #13, you should have a total of 114 photos.
15. Click “Select All” and once all 114 photos are selected, choose “Duplicate.”
16. You should now have 228 photos. This is the total amount of photos needed to finish the project.

### **IMPORTING MUSIC IN JELLY CAM**

1. Go to soundtrack and import a song from the folder that is labeled:  
Stop Motion Video Project with Props (MUSIC) (5B)

### **SAVING PROJECT IN JELLY CAM THAT IS NOT COMPLETELY FINISHED**
